

Assignment 01

- Based on the whole project management lessons and tool usage
- Duration : Throughout the semester
- Group work : The team should be your group project team

Work description

- **Purpose:**

One of the most important initiatives in modern project management is using project management software to track tasks and monitor project progress. This effort aims to improve project efficiency, encourage transparent communication, and facilitate stakeholder collaboration.

Also, this would be an added advantage to your internship hunting.

- **Tasks:**

1. You are required to create a project space on either
 - Clickup : <https://app.clickup.com/>
2. Add your team members to the project space
3. Add your supervisor / group project coordinator to the project space
4. Add myself to the project space (Use shakya@ictec.ruh.ac.lk email)
5. Continue using the selected tool. You will be evaluated based on the work that you have carried out.
 - The initial tasks:
 - Create WBS and assign tasks to members.
 - Assigned tasks should be progressed by each member
