Consent for Undergraduate Group Project – Hotel Management System

Dear Mr. Nuwan,

I, Mr. G.H.S. Sudesh, the manager of The Lake Hotel & Resort, hereby confirm that I have given my full consent to the undergraduate group from the Department of ICT, Faculty of Technology, University of Ruhuna, to carry out their third-year group project titled “**Hotel Management System**” based on my hotel.

The system was developed to address the current manual challenges in room booking, pool reservations, event management, and reporting. I understand that the proposed system is designed to automate these services, improve customer experience, and support administrative work.

I appreciate the effort shown by the student group and am satisfied with the progress of their work. I believe the system they have developed will be helpful to hotel operations once fully implemented.

Sincerely,

Mr. G.H.S. Sudesh
